PESTICIDE: APPLICATION FOR EMERGENCY USE

1. NOTES

- 1.1 This application must be completed in terms of the requirements of Procedure 07.
- 1.2 Completed application to be forwarded to the SGS Qualifor Programme Director/Manager within 30 days from the day the pesticide is being used for the first time.

Certificate Holder (name as it appears on cert.)	Certificate No:
Application Submission Date:	
Country of Application:	
Responsible Affiliate:	
Responsible Person:	
Product Name for which approval is requested:	
Active Ingredient of product:	
Method of application and application equipment:	
Common and scientific name of the pest species:	
SCOPE OF REQUESTED EMERGENCY Include the name of the client(s), FSC certification code(s) and the geographical area where the pesticide is to be applied.	
DEMONSTRATED NEED: Need may be demonstrated where: Emergencies may include invasions or infestations of animal pests, weed plants, certain fungal diseases, or dramatic changes in vegetation composition, which threaten ecological stability, where they cannot feasibly be controlled by conventional means; and The pesticide is used for protecting native species and forests against damage caused by introduced species or for protecting human health against dangerous diseases, or Use of the pesticide is the only economically, environmentally, socially and technically feasible way of controlling specific organisms which are causing severe damage in natural forests or plantations in the specified case (as indicated by consideration, assessments and preferably field-trials of alternative non-chemical or less toxic pest management methods), or Use of the pesticide has been ordered by the Government.	
SPECIFIED CONTROLS TO MITIGATE THE HAZARD	

The application shall specify the controls that will be implemented to mitigate the hazard associated with the use of the pesticide, for example restrictions related to weather conditions, soil types, application method, water courses, etc.

Approval is conditional to these controls being in place and/or being applied.

ACTIVITIES FOR DEVELOPING ALTERNATIVES

The application shall summarize activities for developing alternatives, and list any non 'highly hazardous' pesticides registered by national authorities for controlling the pest organism.
